

Advanced Collection and Processing Techniques

Limited to 12 students.

An advanced one day hands-on workshop featuring the newest tools from Ocean Systems to include a portable on-scene recovery device. The workshop will also concentrate on processing challenging images using the new align and average interface in ClearID.

Other new image analysis techniques will be explored as well.

Finally, the workshop will address how to consolidate and manage all of your digital evidence regardless of source with the newly released archive-R.

Date: Thursday, November 18, 2010.

Tuition: \$175.00

INSTRUCTOR: Joanna Doute Wenk is Ocean Systems' Training Services Manager and a valued instructor of LEVA's FVA courses. She has over 19 years of experience in forensics and law enforcement. Ms. Wenk began her career as a Forensic Scientist at the Chicago/Illinois State Police Crime Lab. Her professional experience includes: supervising the forensic unit of a multi-jurisdictional homicide task force, processing crime scenes and presenting courtroom testimony as a qualified expert witness. She also served at the Schaumburg Police Department as its Forensic Video Analyst and as its Forensic Services Supervisor, where she was responsible for training all forensic personnel. Ms. Wenk has been with Ocean Systems for over four years and has trained more than 1000 law enforcement personnel in the science of forensic video and image analysis using the dTective forensic video clarification system and ClearID.
